"A member of the University of Louisiana System"

Connecting to UNOSECURE using Windows 11 Operating Systems

The following instructions and general notes are for Windows 11 users. After the setup is completed, you will need to login to the UNO-Domain only for the initial connection. Please be careful since you are responsible for following all UNO policies regarding the use of the UNO network with your account. ***If you encounter any trouble, feel free to contact the Help Desk at (504) 280-4357 or by email at helpdesk@uno.edu. You may also stop by the Help Desk, located in the UCC Room 101.***

1. Go to **Settings** → Select **Network and Internet**.

2. Select **Wi-Fi** → Select **UNOSECURE.**

3. Select **Connect** → Enter your **UNO Username and Password.**

4. If this pop-up screen shows, select **"Connect"**.

Find a setting 🔍	📶 Wi-Fi	On ⬤
	(ᵀᴬ) Show available networks	∧
🏠 Home	📶 eduroam	
🖥 System	📶 UNO Employee	
⚙ Bluetooth & devices	📶 unosecure	
🌐 Network & internet	Secured	
🖌 Personalization	Continue connecting?	
🗔 Apps	If you expect to find unosecure in this location, go ahead and connect. Otherwise, it may be a different network with the same name.	
👤 Accounts		
🕐 Time & language	Show certificate details	
🎮 Gaming		Connect Cancel

5. If the following does not work:
    a. Go to **"Advanced Wi-Fi Network Properties"** → **"Edit."**
    b. Select the **Security** Tab in the top Left, ensure the section shows:
        i.   **Security Type**: WPA2-Enterprise
        ii. **Encryption Type**: AE5
        iii. **Choose a network authentication method**: Microsoft: Protected EAP (PEAP)

If you are still having trouble, contact the Help Desk at (504) 280-4357 or by email at helpdesk@uno.edu. You may also stop by the Help Desk, located in the UCC Room 101.
